## University of Miskolc – Brief introduction

The predecessor of the University of Miskolc was the school of mining and metallurgy (Bergschule) established by Charles III in Selmecbánya in 1735, which was the world's first higher education institution giving instruction in these fields (in Freiberg, courses were launched in 1765, in Berlin in 1770, and in St Petersburg in 1773). In 1920, as a result of the Trianon peace treaties, Selmec became part of Czechoslovakia so the academy had to move. It was Sopron that gave home to the homeless institution. Act No. XXIII of 1949 of the Hungarian National Assembly ordered that 'in order to enhance higher education in technology, a university of heavy industry be established in Miskolc. The university shall be divided into the faculties of mining and metallurgical engineering.' The demand for a change in the educational system gave rise to the intention to complete technical faculties with ones offering programmes in social sciences. Law courses started in 1981, and an independent Faculty of Law was established in 1983. It was at this time that the objective was formulated that the university should rise to the level of universitas in the classical sense. The next development step was the launching of a programme in economics, followed by the establishment of the relevant faculty in 1990. As of 1 July, 1990, the name of the university was changed to University of Miskolc (Hungarian abbreviation: ME). In 1992, the Institute of Arts was founded. It became a faculty in September 1997. In 1997, following its separation from the college, the Miskolc department of Liszt Ferenc College of Music was integrated into the university as its Bartók Béla Music Institute. Having renewed their programmes, the technical faculties continue their activities as Faculties of Earth Science and Engineering, Materials Science and Engineering and Mechanical Engineering and Informatics. The first bachelor programme of the Institute of Healthcare was launched in 2001 to train district nurses, and in September 2004, the instruction of physiotherapists was also started here. In 2005, the institute was given faculty status therefore its present name is Faculty of Healthcare.

4. Institute of Management Sciences - Location: A/4 Building Room 319 3<sup>rd</sup> Floor
5. Institute of Marketing and Tourism - Location: A/2 Building Room 109 1<sup>st</sup> Floor
6. Institute of World and Regional Economics - Location: A/4 Building Room 12 Ground Floor

## City of Miskolc

Miskolc is the seat of Borsod-Abaúj-Zemplén County. As the most populated city (ca. 164 000 inhabitants) of the largest county in the North-Hungarian Region it plays a central role in the administration, economic and cultural life of the region. Numerous administratively significant county and regional institutions and offices are located in Miskolc.

As a large city of regional importance, Miskolc has a leading role also in the scope of culture. From cultural aspect the National Theatre of Miskolc, operating more playing sites, is a determinant institution, being the oldest stone theatre in the territory of the present day Hungary, which played performances in Hungarian language first.

In the **music** life of the city the nationally famous **Symphonic Orchestra of Miskolc** has an important role. Its concert hall in the city, the House of Arts, is the site of orchestral concerts, pop concerts and theatre performances. Two viewing rooms of CineMis, operator of the art cinemas of Miskolc, are operating in the building.

In the institutions of the Cultural Centre of **Miskolc** – in the Youth and Leisure Time House as well as in the Ady Endre Cultural and Leisure Time Centre – also more entertaining programs for different strata as well as for the youth are organized. As in large cities smaller community centres are operating in all city quarters, serving the cultural demands of the local inhabitants.

Due to its size and location Miskolc has a determinant role in the economy of the region. Since the 1960s the heavy industry has been the dominant branch; however its role and significance is decreasing from the 1990s. Besides numerous local enterprises in recent years more multinational large companies have settled in **Miskolc**, ensuring many jobs for the inhabitants of the **city** and for people living in its surroundings.

The investors' interest for **Miskolc** is continuous; both infrastructural and labour market conditions are given for the settlement of new investors.

Miskolc is situated at the edge of the Északi-Középhegység (North-Upland) in the so called Gate of Miskolc. The city is the geographical centre of the regions of Borsod-Abaúj-Zemplén County: the Bükk Mountains, the Cserhát, the Zemplén Mountains and the edge of Alföld (Great Plain) meet here.

The climate of Miskolc

Altitude:	130 m
Air-pressure:	750,4 mm
Average annual mid-temperature:	9,7°Celsius
Average annual amount of precipitation:	576 mm
Average annual number of warm days (achieving 25°Celsius):	77 days
Average annual number of cold days (under 0°Celsius):	105 days
Average annual number of rough days (under -10°Celsius):	17 days
