Consultation time: Tuesdays between 12:00 – 14:00

Miskolc, 01/02/2021

Dr. Sándor Bozsik
associate professor

Structure of financial report analysis

1. Please choose a registered company from the premium category from your native country and choose a benchmark company.
2. The benchmark company should be a big, well-known international company from the same industry as your chosen company, and its share should be registered in a Stock Exchange.
3. Download their last annual report of these two companies from their website and create an excel sheet by typing the required data (balance sheet and income statement from the current and previous year) into separate worksheet (one for the home company, one for the international one).
4. Make the cash flow and ratio analysis of the chosen companies compared with the benchmark using the recent financial report data.
5. Make the financial SWOT analysis.

The written report should be at least 5 pages with nice format. Please include your calculation result above your analysis.

You should send the written report and the Excel calculation to the following e-mail address:

pzbozsi@uni-miskolc.hu
